Moumita Roy Chowdhury

Product Designer at ZoomRx
Kolkata, West Bengal, India

Summary

I have five years of experience in the design industry, starting from my diploma in Graphics Web Design and Development from Arena Animation. I have worked on various projects, ranging from design contests to live websites, and learned to use different tools, such as Photoshop, Figma, and Blender. I have also gained domain expertise in the fintech and healthcare sectors, and acquired skills in design thinking, design systems, and user interface design. I am passionate about solving real problems through design, and I am always eager to learn new things and challenge myself.

Experience

ZoomRx

3 years 10 months

Product Designer

February 2025 - Present (1 year 9 months)

Chennai

UI Designer

January 2023 - January 2025 (2 years 1 month)

Chennai, Tamil Nadu, India

- Designing innovative user interfaces for ZoomRx's healthcare technology products that enhance user engagement and experience.
- Collaborating with cross-functional teams, including product managers, developers, and UX designers to create design solutions that meet business goals and user needs.
- Creating and maintaining design specifications, wireframes, prototypes, and visual designs for web and mobile applications, while adhering to brand guidelines and design standards.
- Managing design assets and maintaining a consistent design system for the ZoomRx platform.

- Staying up-to-date with the latest design trends and emerging technologies in the healthcare industry, and incorporating them into the design process as appropriate.
- Communicating design concepts and ideas effectively to both technical and non-technical stakeholders.
- Continuously evaluating and refining the design process to improve efficiency and effectiveness.
- Collaborating with the development team to ensure that design solutions are implemented accurately and efficiently.
- Contributing to the overall product vision and strategy and advocating for user-centered design practices within the organization.

ALMINDS

Intermediate UX/UI Designer

January 2022 - December 2022 (1 year)

Kolkata, West Bengal, India

[**Note**: I was hired at Transnova Fintech Pvt Ltd, which was their product-based company. However, their page was not available on LinkedIn at the time, as the product had not yet been launched. When the page of that product becomes available after its launch, I will update the same here.]

- As the sole designer on the team, collaborated with Transnova Fintech Pvt Ltd to develop an in-house FinTech product, contributing to the understanding of the finance ecosystem and illustrating design concepts for the upcoming launch. Led the effort to implement design thinking, visualization, and implementation strategies, ensuring the product meets business goals and user needs.

Conducted extensive research on financial technology, identifying opportunities to solve real problems and improve the user experience.

- Developed creative concepts and storyboards for 3D assets and mascots, utilizing strategic design thinking to drive innovation and differentiation.
- Designed and developed interaction, layout, and low/high-fidelity interactive prototypes to validate concepts and enhance the user experience.

hugebinary

UI Designer

April 2021 - November 2021 (8 months)

Kolkata, West Bengal, India

Developed web templates for multiple projects, ensuring consistency and adherence to project requirements.

Created brand guidelines for various projects, defining the visual identity and tone for each brand.

Designed engaging PowerPoint presentations for marketing purposes, incorporating brand guidelines and effective visual communication.

Led the design efforts for a dedicated website project, collaborating with cross-functional teams to ensure successful delivery.

Ensured a cohesive visual design across projects, paying close attention to details and aesthetics.

ESolz

UI Designer

June 2019 - March 2021 (1 year 10 months)

Kolkata, West Bengal, India

Developed web templates for various projects, ensuring they met the needs of clients and end-users.

Employed creative problem-solving to overcome challenges faced by clients, resulting in effective and impactful design solutions.

Took part in design contests to achieve project targets and emerged as a winner on multiple occasions.

Established brand guidelines for a range of projects, maintaining a consistent visual identity across all materials.

Collaborated with a team to design and develop the current website for the company, incorporating best practices and optimizing for user experience.

Designed banners for company blogs, creating eye-catching visuals to attract readers and promote engagement.
